Online Home Campus FAQ

What is my Username?

- Your username is the email address that you registered with. This needs to be a parent/guardian email.

How do I register for multiple Sports?

- If you know you are going to play multiple sports when registering, it is best to add all sports on the first step where you also select the school year and school. If you are registering for additional sports after completing your initial clearance for the year, you will have to complete the process again. The good news is that if you select the student & parent/guardian info from the dropdown on those respective pages, the information will autofill.

What is the 'Physicals' Page?

- This is where you will submit your EL2 physical form for clearance. The physical form can also be downloaded on the Medical History page should you need to access it later. Our school will only accept a physical uploaded to the platform. We do **NOT** accept hard copy submissions.

What is 'Your Files'?

- This area is meant to store your files so they can be accessed later in the year or perhaps years following. Files do not carry over year to year automatically. You will be asked to click on the files tab when creating a new clearance to carry over your EL2 (athletic physical), birth certificate, and ECG results each year for each clearance submitted.

Why haven't I been cleared?

- The Horizon Athletic Department will review the information you have submitted before clearing you for participation. Once they review your clearance they will change the status. You will receive an email when you have been cleared for participation. Please allow at least 2 business days for a staff member to review.

I was "Denied" clearance, now what?

- You should have received an email with the reason for denial. Please update your clearance accordingly then resubmit your profile for clearance.
